DENIX, COLECCIONANDO LA HISTORIA.

BIENVENIDOS AL CATÁLOGO DE DENIX,
DONDE PODRÁS CONOCER NUESTROS PRODUCTOS
QUE LLEVAMOS FABRICANDO DESDE 1967
EN CIUTADELLA DE MENORCA (ISLAS BALEARES, ESPAÑA).

Construimos pequeños momentos de la historia, para que tú disfrutes coleccionándolos. Desde la Antigüedad, pasando por la Europa Medieval, el descubrimiento de América, las aventuras de piratas y corsarios, la revolución francesa, la conquista del oeste y la Guerra Civil Americana, las grandes Guerras Mundiales hasta la actualidad. Lideramos la fabricación de réplicas de armas de gran calidad, cumpliendo con las normativas europeas, para conseguir réplicas fidedignas y seguras de tus armas preferidas.

DENIX es una empresa principalmente exportadora que trabaja en más de 40 países, de la mano de una sólida red de distribuidores oficiales de la que te invitamos a formar parte.

Como coleccionista y fan de las armas históricas, te proponemos disfrutar de nuestro catálogo con más de 300 productos, y descubrir las historias y personajes que esconde cada réplica. Forma parte de nuestra comunidad de fans y te mantendremos informado de concursos, noticias, novedades y la actualidad sobre DENIX y sus productos.

DENIX, COLLECTING HISTORY.

WELCOME TO THE DENIX CATALOGUE,
WHERE YOU CAN DISCOVER OUR PRODUCTS
THAT WE HAVE BEEN MANUFACTURING SINCE 1967
IN CIUTADELLA DE MENORCA (BALEARIC ISLANDS, SPAIN).

We manufacture small moments of history, for you to enjoy collecting them. From the Antiquity to the present. We lead the manufacture of high quality replica weapons. Complying with European regulations to obtain reliable and safe replicas of your favourite weapons.

DENIX is a strong exporting company that works in more than 40 countries. Together with a solid network of official distributors which we invite you to join.

As a collector and fan of historical weapons, we invite you to enjoy our catalogue with more than 300 products, and discover the stories and characters behind each replica. Join our fan community and we will keep you informed of contests, novelties, and news about DENIX and our products.

DENIX

LA ANTIGÜEDAD HASTA EL S. VI

La historia de las armas de la Antigüedad clásica arranca en Grecia, rodeada de vecinos hostiles, como los persas, macedonios, y posteriormente los romanos.

Las réplicas de armas como las dagas y espadas de la Roma clásica nos transportan a los tiempos del emperador Julio César o las competiciones de gladiadores.

FROM THE ANTIQUITY TO VI C.

The history of the weapons of the classic Antiquity begins in Greece, surrounded by hostile neighbours, like Persian, Macedonian, and later the Romans.

Replicas of weapons such as daggers and swords of classical Rome that transport us to the time of Emperor Julius Caesar or to the competitions of gladiators.

EUROPA MEDIEVAL S. VI-XV

Viajamos al mundo de la era de hierro germánica, de los reinos bárbaros, de los vikingos, donde campesinos escandinavos armados con espadas, escudos, cascos y hachas viajaban en expediciones periódicas para saquear las costas vecinas.

Avanzamos por la Edad Media y nos encontramos con figuras históricas como el Rey Arturo y su espada Excalibur, Ricardo Corazón de León y los caballeros Templarios.

MEDIEVAL EUROPE VI-XV C.

We are transported to the world of the Germanic iron age, the barbarian kingdoms, the Vikings, where Scandinavian peasants armed with swords, shields, helmets and axes traveled on periodic expeditions to loot their neighbour coasts.

We advance through the Middle Ages and we find historical figures such as King Arthur and his sword Excalibur, Richard the Lion heart and the Templar Knights.

COLONIAL Y PIRATA 1492 - S. XVII

Vive las aventuras de corsarios, piratas y bucaneros a través de las réplicas de sus armas y tesoros. Pistolas, trabucos, espadas y cañones que protagonizaron interminables viajes y asaltos a las costas del Caribe y América del Sur.

Nuestras réplicas rememoran a personajes como Bartholomew Roberts (1682-1722), pirata galés que logró armar una escuadrilla de proporción suficiente para desestabilizar a la flota británica. Se cree que con su famoso barco, "The Royal Fortune", llegó a capturar más de 470 navíos.

Y Edward Teach (1680-1718), más conocido como "Barbanegra", uno de los piratas más famosos de la historia y también uno de los más temidos de su tiempo, que a bordo de su barco "Queen Anne's Revenge" expolió el Caribe y la costa atlántica de América del Norte.

COLONIAL & PIRATE 1492-XVIII C.

Experience the adventures of privateers, pirates and buccaneers through the replicas of their weapons and treasures. Pistols, blunderbuss's, swords and cannons that took part in many trips and assaults to the coasts of the Caribbean and South America.

Our replicas recall characters such as Bartholomew Roberts (1682-1722), a Welsh pirate who managed to arm a squadron of sufficient proportions to destabilize the British fleet. It is believed that with his famous ship, "The Royal Fortune", he captured more than 470 ships.

And Edward Teach (1680-1718), better known as "Blackbeard", one of the most famous pirates in history and also one of the most feared of his time, who aboard his ship "Queen Anne's Revenge"; expelled the Caribbean And the Atlantic coast of North America.

ARMAS HISTÓRICAS S. XVI-XIX

De la Europa de los siglos XVI a XIX nuestro catálogo muestra un sin fin de armas de fuego como pistolas, trabucos, mosquetones, fusiles con bayoneta y carabinas de chispa y percusión, acompañadas por sables.

Tiempos de grandes batallas, escenas de duelos entre caballeros. Siglos de guerras entre los principales reinos de Europa hasta la llegada de la Ilustración y la Revolución Francesa, cuando emergen figuras históricas como la de Napoleón I Bonaparte (1769-1821), Emperador de Francia (1804-1815), considerado uno de los mayores genios militares de la historia.

HISTORICAL WEAPONS XVI-XIX C.

From Europe of the sixteenth to nineteenth centuries our catalogue shows an endless number of firearms such as pistols, blunderbuss's, carbines, rifles with bayonets and flintlock and percussion carbines, accompanied by sabres.

It was time of great battles, scenes of duels between gentlemen. Centuries of wars between the principal kingdoms of Europe until the arrival of the Enlightenment and the French Revolution, when historical figures emerged such as Napoleon I Bonaparte (1769- 1821), Emperor of France (1804-1815), who was considered one of the greatest Military geniuses of history.

WESTERN Y GUERRA CIVIL AMERICANA 1861-1899

La Guerra de Secesión o Guerra Civil Americana fue un acontecimiento muy significativo en la historia de los Estados Unidos de América, que tuvo lugar entre 1861 y 1865. Los dos bandos enfrentados fueron las fuerzas de los estados del Norte (La Unión) contra los recién formados Estados Confederados de América, integrados por once estados del Sur, que proclamaron su independencia.

Con la paz se inician innumerables historias y leyendas de conquista del salvaje oeste, que tuvieron lugar en el siglo XIX.

Las réplicas de revólveres, rifles, pistolas, carabinas y cañones atestiguan estas historias y protagonizan un género literario y cinematográfico vivido a través de las aventuras de forajidos, sheriffs y asaltos a las diligencias.

WESTERN AND AMERICAN CIVIL WAR 1861-1899

The Civil War was a very significant event in the history of the United States of America, which took place between 1861 1865. The two sides faced were the forces of the Northern states (the Union) against the newly formed Confederate States of America, integrated by eleven states of the South, that proclaimed its independence.

With the peace, begin innumerable histories and legends of conquest of the wild west, that took place in 19th C.

Replicas of revolvers, rifles, pistols, carbines and cannons that attest to these stories and lead a literary and film genre that lived through the adventures of sheriffs, outlaws and stagecoaches.

GUERRAS MUNDIALES 1914 - 1945

En el siglo XX tienen lugar las más cruentas guerras de nuestra historia: las dos «Guerras Mundiales». La Primera Guerra Mundial (1914-1918), también conocida como “la Gran Guerra”. Y la Segunda Guerra Mundial (1939-1945).

Nuestras réplicas de insignias y armas de todos los ejércitos implicados, rinden homenaje a estos dramáticos episodios. Granadas de mano, carabinas, rifles, pistolas, revólveres, dagas, fusiles y ametralladoras son algunas de las armas que protagonizaron estos colosales enfrentamientos.

La tradición cinematográfica ha sellado en nuestra memoria batallas y misiones épicas de soldados... que en muchos casos utilizan nuestras réplicas de armas históricas.

WORLD WAR I & II 1914 - 1945

In the twentieth century took place the bloodiest wars of our history: the two “World Wars”. World War I (1914-1918), also known as “The Great War” And the Second World War (1939-1945).

Our replicas of insignias and weapons of all the armies involved, pay homage to these dramatic episodes. Hand grenades, carbines, rifles, pistols, revolvers, daggers, rifles and machine guns are some of the weapons used in these colossal clashes.

The film tradition has sealed in our memory epic battles and missions of soldiers ... that in many cases use our replicas of historical weapons.

ARMAS MODERNAS 1945 - 1982

Cuando hablamos de armas modernas, lo hacemos de modelos concretos. Nuestras réplicas de armas más emblemáticas las reconocerás porque protagonizan películas, series televisivas y videojuegos.

El Python, un revólver de doble acción calibrado para el potente cartucho .357 Magnum. Su uso principalmente policial lo ha llevado a la fama por su aparición en las pantallas.

El AK-47, es un fusil de asalto soviético, diseñado por Mijaíl Kaláshnikov, es el arma de fuego de mayor producción de la historia, con cerca de 80 millones de unidades fabricadas.

El M16A1 se convirtió en el fusil estándar del Ejército de los Estados Unidos en 1969 y fue usado durante la Guerra de Vietnam.

MODERN WEAPONS 1945 - 1982

When we speak of modern weapons, we are referring to concrete models. You will recognize our most emblematic weapon replicas because they appear in movies, TV series and video games.

The Python, a double action revolver calibrated for the powerful .357 Magnum cartridge. It is mainly used by the police and it is well known because its appearance in the screens.

The AK-47, a Soviet assault rifle, designed by Mikhail Kalashnikov, is the most produced firearm in history, with about 80 million units manufactured.

The M16A1 became the standard rifle of the United States Army in 1969 and was used during the Vietnam War.
